

Weather forecast in France

These data are an average of the period 2000-2020 to give you an overview of the weather in France.

However, it is becoming increasingly difficult to rely on them, as the climate in France has become more and more uncertain in recent years.

For example: (average from 2000 to 2020) in Paris in July the maximum daytime temperature is 27° and the minimum is 16°. The number of hours with sunshine and clear skies is 8 hours. There are 4 days with light rain, 2 days with medium rain, 1 day with heavy rain and 24 days without rain.
